Banda Aceh, Indonesia

Full Stack Developer with 2+ years of experience in full stack development, frontend, backend, and AI engineering. Skilled in TypeScript, Next.js, Go / Golang, Express.js, FastAPI, Python, Java, Kotlin, Flutter, PostgreSQL, and MySQL. Experienced in building RAG architectures and LLM- powered applications, with hands- on exposure to automated testing (Go testing, Appium, TestNG, Selenium WebDriver) and strong technical leadership and collaboration skills.

Education Level

Universitas Syiah Kuala - Banda Aceh, Indonesia Aug 2022 - Jun 2026

Bachelor of Informatics (Computer Science), 3.51/4.00

- Head of Student Welfare Management Department at HMIF USK, leading strategic programs across 2 divisions.
- Teaching Assistant for core courses: Software Architecture and DevOps.
- National IT competition finalist, and developer of grant-funded community tech solutions.

Work Experiences

Universitas Syiah Kuala - Banda Aceh, Indonesia Jun 2026 - Dec 2026

Full Stack Developer, Research Project Contract (Skema Penelitian Lektor, LPPM-funded)

- Contributed to "Feasibility Study of Digital DSMES for Type 2 Diabetes Complication Prevention in Banda Aceh," a nationally-funded faculty research project (Skema Penelitian Lektor/PL).
- Engineered DSMES Aceh's full-stack platform, including a Go/Fiber REST API, a Flutter patient app with education modules and health logging, and a web portal with real-time adherence dashboards for clinic staff.
- Technology: Go / Golang, Fiber, Flutter, Dart, Next.js, TypeScript, PostgreSQL, Docker, GitHub Actions, Clean Architecture

Dinas Komunikasi, Informatika dan Persandian Aceh - Banda Aceh, Indonesia Aug 2025 - Sep 2025

AI Engineer, Internship, Professional

- Engineered LawChain, a RAG legal AI providing intuitive access to UUD 1945 using FastAPI.
- Integrated local LLMs (Gemma 2 & LLaMA 3 via Ollama) achieving zero hallucination on legal queries.
- Deployed production pipelines on-site, enabling automated internal legal document retrieval.
- Technology: TypeScript, Next.js, Python, FastAPI, LangChain, Ollama, LLaMA 3, Gemma 2, RAG Architecture

Universitas Syiah Kuala - Banda Aceh, Indonesia Aug 2025 - Dec 2025

Full Stack Developer, Community Service Grant Project (Program Pengabdian Kepada Masyarakat), Contract

- Launched BUKADITA, a PWA Posyandu platform digitizing health records for 50+ local cadres.
- Secured PKMBP-TTG National Grant funding through cross-faculty Nursing & FMIPA collaboration.
- Implemented multi-tier Role-Based Access Control (RBAC) for cadres, admins, and stakeholders.
- Technology: TypeScript, Next.js, Express.js, Node.js, PWA, PostgreSQL

Coding Camp by DBS Foundation - Jakarta, Indonesia Feb 2025 - Jul 2025

Front-End and Back-End Developer, Cohort, Remote

- Selected out of 63,356 applicants (Top 4.7%) for the national full-stack developer program.
- Engineered PurrPal, an AI pet healthcare platform using Next.js and Express.js in a 5-member team.
- Integrated Gemini AI for real-time consultations, scoring 95+ Lighthouse and Top 20 of 398 teams.
- Technology: TypeScript, Next.js, Node.js, Express.js, Gemini AI, GCP

Himpunan Mahasiswa Informatika USK (HMIF) - Banda Aceh, Indonesia Feb 2025 - Mar 2026

Head of Student Welfare Management Department, Seasonal, Organization

- Managed 14 members across Student Aspirations & Women Empowerment divisions in Beyond Cabin
- Delivered 12 strategic programs enhancing engagement among students, alumni, and faculty admins

Projects

EcoMaggie / Innovilage (Telkom Indonesia)

Freelance Project / Client Project, Full Stack Developer

- Built EcoMaggie, a PWA circular economy platform connecting organic waste suppliers with BSF maggot farmers.

- Integrated Midtrans Payment Gateway, Biteship multi-courier API, and WhatsApp Business API for automated alerts.
- Selected as a Top 50 Finalist in the Innovillage National Social Innovation Program and secured project funding.
- Technology: TypeScript, Next.js 16, Supabase, Tailwind CSS, PWA, Midtrans API

ADAPTIVIN / Kemendikbudristek (LIDM ITDP 2025)

Competition Project (Top 20 National Finalist), Front-End Developer & AI Engineer

- Engineered a rule-based adaptive engine adjusting difficulty (Level 1-5) based on performance & latency
- Integrated Gemini AI for personalized recommendations and field-tested system at SDN 16 Banda Aceh
- Selected as Top 20 National Finalist in ITDP Division at LIDM 2025 organized by BPTI/Kemendikbudristek
- Technology: TypeScript, Next.js 15, Node.js, Express.js, Firestore, Supabase, Gemini AI

VELORA / INFINITERA 1.0

Competition Project (2nd Place Winner), Full Stack Developer & ML Engineer

- Engineered a maternal risk classifier (84% accuracy) for High, Medium, & Low risk detection via Scikit-Learn
- Built FastAPI backend endpoints & Streamlit dashboard digitizing traditional maternal health tracking (Buku KIA)
- Awarded 2nd Place Winner at the INFINITERA 1.0 National Web Programming Competition
- Technology: Python, FastAPI, Streamlit, Scikit-Learn, Pandas, Next.js, Express.js

GAJIBERSIH / INFEST XI

Competition Project (Top 10 National Finalist), Front-End Developer

- Led front-end development end-to-end, from initial concept to final product, designing the user flow for contract upload, AI-powered analysis, and risk visualization.
- Built the front-end interface for the salary calculator, breaking down BPJS and PPh21 deductions into a clear, transparent view.
- Designed the interactive AI chat interface, enabling context-aware Q&A based on the user's uploaded contract.
- Selected as Top 10 National Finalist in the INFEST XI National Hackathon Competition
- Technology: Next.js 14, TypeScript, TailwindCSS, Framer Motion, Supabase

WriteNShare

Personal Project, Full Stack Developer

- Built WriteNShare, a full-stack blogging platform (React frontend, Go backend) with JWT authentication, rich-text editing, image uploads via ImageKit, and a layered REST API architecture.
- Implemented role-based admin management, infinite scroll pagination, and a save/bookmark system, backed by PostgreSQL.
- Technology: React 19, Vite, Tailwind CSS, Go, Chi Router, PostgreSQL, JWT, ImageKit

Automated Testing Suite for an Islamic Prayer Reminder App (TaubatKu)

Personal Project, QA / Test Automation Engineer

- Designed an end-to-end automated testing suite for an Android app, covering onboarding, registration, core feature validation, and CRUD operations using Appium and UIAutomator2.
- Applied testing best practices — dynamic waits, randomized test data, and automatic failure screenshots — orchestrated via TestNG and Selenium WebDriver.
- Technology: Java, Appium, TestNG, Selenium WebDriver, Maven, UIAutomator2

Achievements and Skills

- **2nd Place Winner in INFINITERA 1.0 National Web Programming Competition** 🏆 (2025): Engineered VELORA, an AI-powered maternal health platform with 84% risk-prediction accuracy (Scikit-Learn), digitizing traditional maternal health tracking (Buku KIA) into a FastAPI + Streamlit dashboard.
- **Top 20 National Finalist in LIDM ITDP 2025 (Kemendikbudristek / BPTI)** 🏆 (2025): Developed ADAPTIVIN, a rule-based adaptive learning platform with Gemini AI-powered recommendations; field-tested at SDN 16 Banda Aceh with measurable engagement gains.
- **Top 20 Best Capstone Team in DBS Foundation Coding Camp** 🏆 (2025): Served as Lead Front-End Developer for PURRPAL, an AI pet healthcare platform, selected from 398 national teams (63,356 applicants) with a 95+ Lighthouse score.
- **Top 10 National Finalist in INFEST XI National Hackathon** 🏆 (2025): Led front-end development for GAJIBERSIH, an AI-powered legal-tech platform helping Indonesian workers analyze contracts and calculate BPJS/PPh21-compliant net salary.
- **Hard Skills**: Go / Golang, Fiber, TypeScript, JavaScript, Python, Java, Kotlin, Node.js, Express.js, FastAPI, Next.js, Flutter, React, RESTful API, PostgreSQL, MySQL, Supabase, Docker, GCP, GitHub Actions, RAG Architecture, LangChain, Ollama, LLaMA 3, Gemma 2, OpenAI API, Gemini AI, Appium, TestNG, Selenium WebDriver
- **Soft Skills**: Technical Leadership, Cross-Functional Collaboration, Problem Solving, Project Management, Team Mentorship
- **Languages**: Indonesian (Native), English (Professional Working)
