Summary

Full Stack Developer with two years of hands-on project experience turning user and stakeholder needs into working applications for education, healthcare, and public-sector projects. Translates requirements into user workflows and builds the frontend and backend behind them using React, Next.js, TypeScript, Go, Express.js, and PostgreSQL. Experienced in taking features from planning through API integration and user testing.

Education

Bachelor of Informatics (Computer Science) Aug 2022–Jun 2026
Universitas Syiah Kuala, Banda Aceh *GPA 3.51/4.00*

Coding Camp powered by DBS Foundation Feb 2025–Jul 2025
Front-End & Back-End Development Program (training) *Remote*

- Led Next.js frontend development for PurrPal, a five-person capstone project; achieved a Lighthouse score above 95 and placed in the top 20 of 398 teams.

Technical Skills

Languages: TypeScript, JavaScript, Go, Python, SQL, Dart
Frontend and Mobile: Next.js, React, Flutter, Tailwind CSS, Progressive Web Apps (PWA)
Backend and Data: Fiber, Express.js, FastAPI, Node.js, PostgreSQL, Supabase, REST APIs
DevOps: Docker, GitHub Actions, Git, GCP

Work Experience

Full Stack Developer (Research Project) Jul 2026–Present
Universitas Syiah Kuala, Banda Aceh *Contract through Dec 2026*

- Structured DIBA (Diabetes Behaviour & Adherence Application) into a Flutter patient app, Next.js clinic dashboard, and shared Go/Fiber API so patient records and clinical monitoring follow one workflow.
- Translated the research protocol into blood-glucose logging, education, questionnaires, and monitoring features; the planned pilot targets 30 patients at one community health center.
- **Technology:** Go, Fiber, Flutter, Dart, Next.js, TypeScript, PostgreSQL, Docker, GitHub Actions

Full Stack Developer (Community Service Grant Project) Aug 2025–Dec 2025
Universitas Syiah Kuala, Banda Aceh *Contract*

- Used PWA caching to keep BUKADITA learning modules available during unstable connectivity, with quizzes and progress views for Posyandu community health workers and supervisors.
- Implemented role-based access and a gated learning flow; usability testing with 22 respondents yielded a 93.87% average USE Questionnaire score.
- **Technology:** TypeScript, Next.js, Express.js, Supabase, PWA

AI Engineer Intern Aug 2025–Sep 2025
Dinas Komunikasi, Informatika dan Persandian Aceh, Banda Aceh *Internship*

- Connected a Next.js interface to LawChain's FastAPI RAG service and compared LangChain with native FAISS retrieval for source-referenced answers; testing remained local.
- **Technology:** Python, FastAPI, Next.js, LangChain, FAISS, Ollama, Gemma2:2b

Teaching Assistant, DevOps Sep 2025–Dec 2025
Universitas Syiah Kuala, Banda Aceh *Contract*

- Mentored 30+ students in development workflows, CI/CD, and cloud deployment for final projects.
- **Technology:** Git, GitHub Actions, Docker, Grafana, Redis, GCP

Teaching Assistant, Software Architecture Sep 2025–Dec 2025
Universitas Syiah Kuala, Banda Aceh *Contract*

- Guided 30+ students in software architecture, design patterns, and final-project system design.
- **Technology:** UML, OCL, design patterns

Selected Projects

EcoMaggie | ecomaggie.com 2026
Full Stack Developer, freelance client project

- Connected catalog, cart, and checkout workflows to Midtrans payments, Biteship delivery, and WhatsApp order alerts in a client e-commerce PWA; the client team reached the Telkom Innovillage top 50.
- **Technology:** TypeScript, Next.js, Supabase, Midtrans API, Biteship API, PWA

VELORA | GitHub 2025
Full Stack Developer and ML Engineer

- Developed Express.js and Supabase APIs that connect maternal-health records and an ML risk classifier to a Next.js dashboard; the team won 2nd place at INFINITERA 1.0.
- **Technology:** TypeScript, Next.js, Express.js, Supabase, PostgreSQL, Python, FastAPI, Scikit-Learn

ADAPTIVIN | GitHub 2025
Frontend Developer and AI Engineer, team project

- Built a five-level, rule-based numeracy flow in the Next.js student app, connecting quiz progress with Gemini AI study recommendations.
- **Technology:** TypeScript, Next.js, React, Supabase, Gemini AI

WriteNShare | GitHub 2024
Full Stack Developer, personal project

- Separated a React client from a Go/Chi REST API, implementing JWT role access, paginated articles, rich-text publishing, and ImageKit uploads with PostgreSQL persistence.
- **Technology:** React, Vite, Go, Chi, PostgreSQL, JWT, ImageKit

Leadership & Organizations

Head of Student Welfare Management Department Feb 2025–Mar 2026
Himpunan Mahasiswa Informatika USK (HMIF) *Banda Aceh*

- Led 14 members across Student Aspirations and Women Empowerment divisions, delivering 12 programs for students, alumni, and faculty.

Achievements & Certifications

- 2nd Place, INFINITERA 1.0 National Web Programming Competition (2025) – Certificate
- 4th Place, INFEST XI National Hackathon, GAJIBERSIH (2025) – Certificate
- Top 20 National Finalist, LIDM ITDP, ADAPTIVIN (2025) – Certificate
- Top 20 Capstone Team, DBS Foundation Coding Camp (2025) – Certificate
- Dicoding, Belajar Back-End Pemula dengan JavaScript (2025) – Verify
- Dicoding, Belajar Fundamental Front-End Web Development (2025) – Verify
- Dicoding, Belajar Pengembangan Web Intermediate (2025) – Verify
